

- 1] The vertebrae are derived from:**
 - A. Paraxial mesoderm
 - B. Intermediate mesoderm
 - C. Somatic lateral plate mesoderm
 - D. Visceral lateral plate mesoderm
- 2] Inserted in the greater tuberosity**
 - A. Subscapularis
 - B. Infraspinatus
 - C. Teres major
 - D. Deltoid
- 3] Has the root value C8,T1:**
 - A. Axillary nerve
 - B. Ulnar nerve
 - C. Musculocutaneous nerve
 - D. Medial pectoral nerve
- 4] Passes deep to flexor digitorum superficialis:**
 - A. Median nerve only
 - B. Ulnar nerve only
 - C. Anterior interosseous nerve only
 - D. Both median and ulnar nerve
- 5] Attached to anterior inferior iliac spine**
 - A. Rectus femoris (straight head)
 - B. Rectus femoris (reflected head)
 - C. Sartorius
 - D. Vastus intermedius
- 6] Contains emissary veins in the scalp:**
 - A. Skin
 - B. Dense connective tissue
 - C. Epicranial aponeurosis
 - D. Loose connective tissue
- 7] Supplied by the trunk of mandibular nerve:**
 - A. Temporalis
 - B. Masseter
 - C. Lateral pterygoid
 - D. Medial pterygoid

8] The collateral branch of intercostal nerve:

- A. Preganglionic sympathetic
- B. Postganglionic sympathetic
- C. Sensory
- D. Motor

9] Never shares in the anterior wall of rectus sheath:

- A. Rectus abdominis
- B. External oblique
- C. Internal oblique
- D. Transversus abdominis

10] Attached to last rib:

- A. Psoas major
- B. Psoas minor
- C. Iliacus
- D. Quadratus lumborum

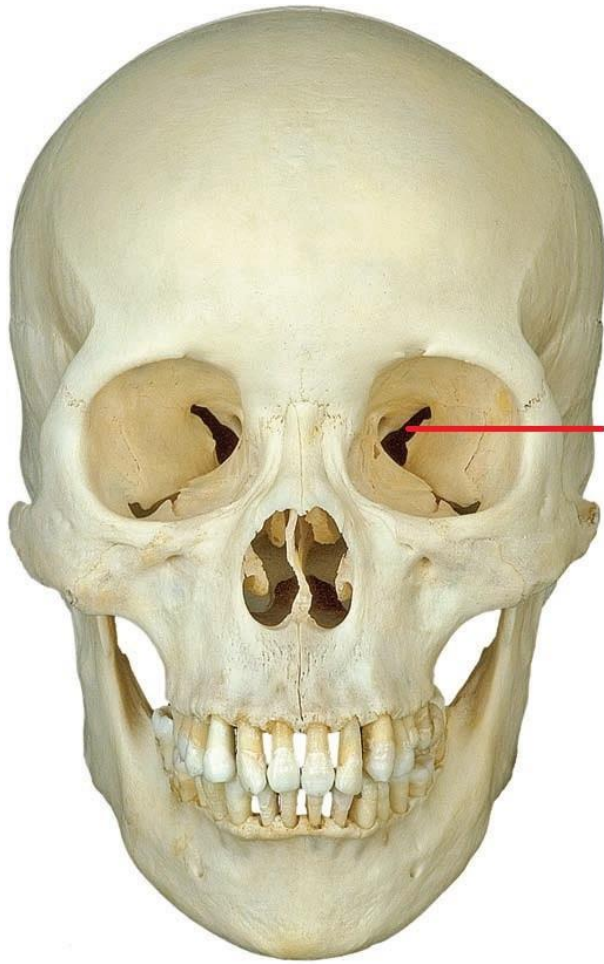

11] What is the structure attached to the marked area?

- A. Trapezoid ligament
- B. Conoid ligament
- C. Costoclavicular ligament
- D. Subclavius

12] What is the marked bone?

- A. Talus
- B. Calcaneus
- C. Cuboid
- D. Navicular

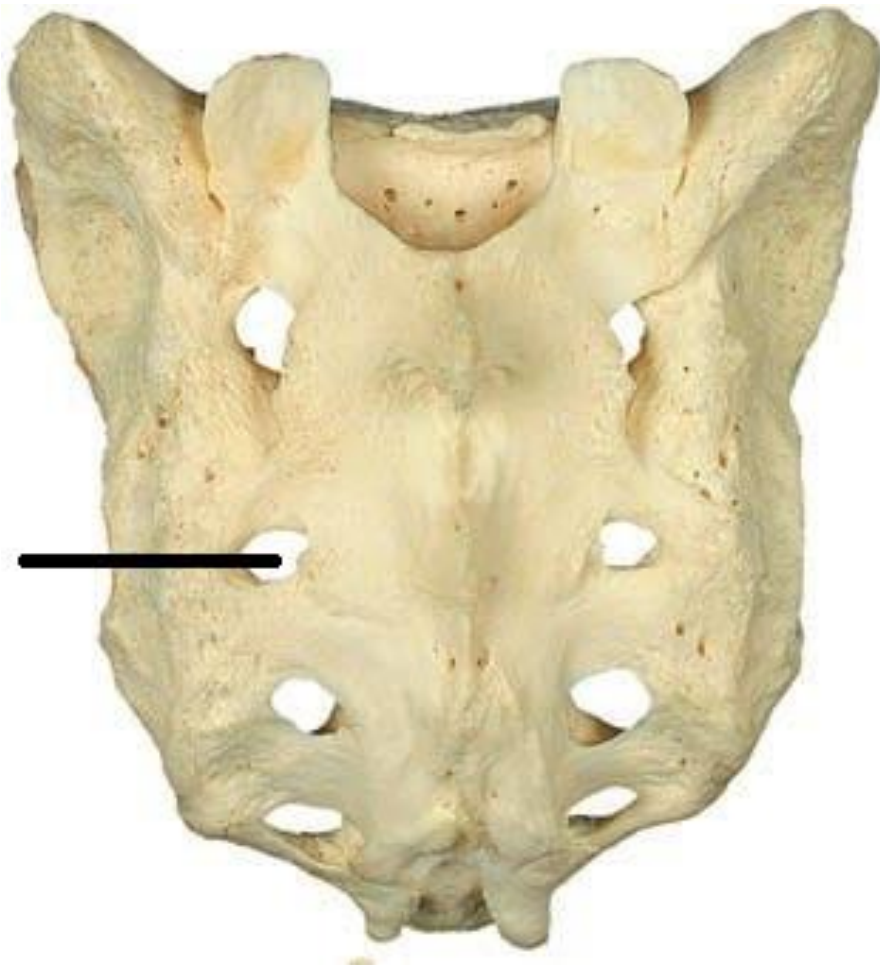

13] What is the structure passing through the marked area?

- A. Lacrimal nerve
- B. Mandibular nerve
- C. Maxillary nerve
- D. Zygomatic nerve

- 14] Which joint does the marked area share?**
- A. Costochondral
 - B. Chondrosternal
 - C. Costovertebral
 - D. Costotransverse

15] A structure passing through the marked area is?

- A. Anterior ramus of sacral nerve
- B. Posterior ramus of sacral nerve
- C. Median sacral artery
- D. Quda equina
